

Spring compressor 1800kg with extra bracket.

Spring compressor set to 1800kg

- Handles approximately 90% of all cars
- Supplied with two sets of jaws: 2-pcs .80-145mm and 2-PCS .145-195mm

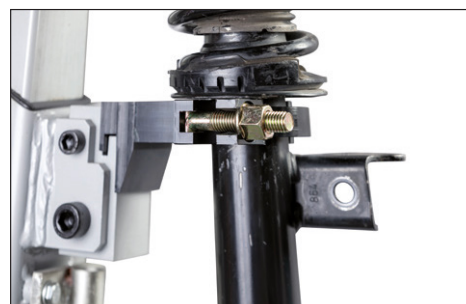

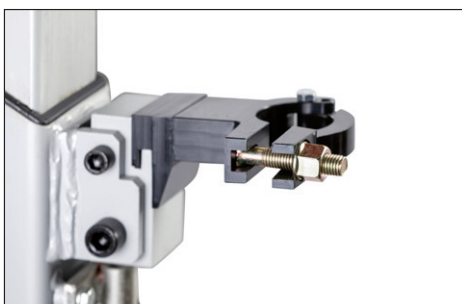

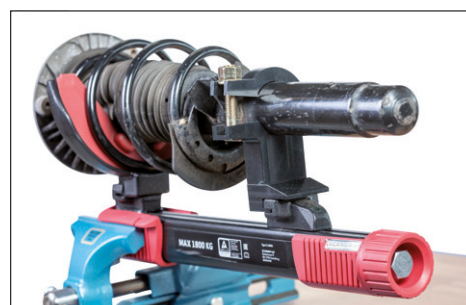

Bracket

Fits with shock absorbers with a diameter between 47 - 60 mm.

How to use

By tightening directly on the shock absorber, while the standard jaw is inserted into the spring from the top of the strut, a significantly longer compression is achieved that loosens the shock absorber.

Competitively priced, robustly manufactured and fully adjustable, presenting a huge business potential in terms of quality and safety assurance.
